

TRANSLATION AUDITOR'S REPORT

To the Shareholders of
Motor Oil (Hellas) Corinth Refineries S.A.

We have audited the accompanying financial statements of "Motor Oil (Hellas) Corinth Refineries S.A." (the Company) for the year ended December 31, 2004. Our audit was performed in accordance with the provisions of article 37 of Law 2190/1920 for societies anonymes and the auditing procedures, which we considered necessary, based on the standards followed by the Institute of Certified Public Accountants of Greece. The Company made available to us all its books and records and provided all the necessary information and other explanations that we requested. The Company has complied with the provisions of the Greek Chart of Accounts. There has been no change in the accounting methods followed as compared with those of the previous year. The cost of production, which derives from the accounting records, has been determined in accordance with generally accepted costing principles. We agreed the contents of the Directors' report to the General Assembly of the Shareholders with the underlying financial statements. The Appendix includes all the information required by paragraph 1 of article 43a of Law 2190/1920.

From our audit work the following was noted:

1. The Company, based on the interpretation of decision No. 205/1988 of the Legal Council, has not provided in full for the amount payable as employee severance compensation upon retirement as provided by Law 2190/1920. Had the Company provided in full for the amount payable to its employees on retirement the provision for retirement benefits as at December 31, 2004 would have been approximately €24.2 million higher based on basic salaries and a further €6.3 million higher based on salary allowances and €2.0 million and €6.2 million respectively as at December 31, 2003. The shareholders' equity would have been lower by the same amounts, of which approximately €2.3 million relates to the current year.

In addition the Company has a private defined benefit plan for its employees. Based on the updated actuarial valuation of this fund, the provision for the shortfall should have been approximately €9.7 million higher as at December 31, 2004 and €10.7 million as at December 31, 2003.

2. The Company has been subject to a tax audit for the financial years up to and including 1999 and hence the Company's tax position for the period January 1, 2000 to December 31, 2004 has not been finalised.
